

ROGUE Walk-behind Scraper

All-Electric

Meet the Rogue, National's newest all-electric walk-behind floor scraper, built to solve the biggest challenges of traditional surface prep machines. With next-gen features, a compact design, and unmatched versatility, the Rogue is designed for maximum efficiency and ease of use.

FEATURES

- Adjustable orbital speed from 0 - 1900 RPMs
- Quick change tooling holder provides transitions with the click of a button
- Two thumb controls allow responsive, precision steering with very little input from the operator
- A simple toggle infinitely switches blade pitch and angle
- Built-in wheel de-coupler puts your machine into transport mode with no loose parts
- Forward and reverse wheel scrapers
- Front, middle, and side weights are removable and positionable
- This modular machine is designed to be pulled apart and transported with ease
